

BRINELL MICROSCOPE - MM-6

Brinell Microscope features a calibrated reticle in a flat field optical system.

This Microscope makes accurate measurements of the indentations for all Brinell type hardness testers. Our Brinell Microscope MMP-6 is Compact, Durable & very accurate thus making it suitable for both Shop and Laboratory use. This Microscope is designed to easily measure the Brinell hardness value of different ferrous and non-ferrous metals. It can determine the Brinell hardness by measuring the diameter of the indentations.

Specifications :

➤ Magnification	25X.
➤ Reticle scale length	6.0 mm.
➤ Scale divisions	0.1 mm.
➤ Field diameter	7.0 mm.
➤ Illumination	Chargable LED Lamp.

The Scale is Calibrated in 0.1 mm units over a range of 6mm. The Diameter of the microscope field is 7mm
